Reasons for the decision

The resource activities meet the relevant criteria for approval as contained in section 49 of the *Regional Planning Interests Act 2014*, including the relevant required outcome for the SEA as contained in the Regional Planning Interests Regulation 2014.

It is considered that the resource activities will not result in a widespread or irreversible impact on an environmental attribute of the Gulf Rivers strategic environmental area.

Conditions of approval

The attached Regional Interests Development Approval (RIDA) confirms the nature and extent of the resource activities the subject of this approval. Conditions include matters relating to the location of the resource activities, when activities are to be undertaken, the implementation of erosion and sediment controls, restrictions on the clearing of vegetation and on the releasing of contaminants, restoring disturbance areas, the retaining of records, the recording of complaints and keeping a copy of the RIDA on site at all times.

It is considered that by imposing conditions, impacts of the approved resource activities on the Gulf Rivers SEA will be appropriately managed.
